

## **POSTING JOB NOTICES FOR STUDENT EMPLOYMENT WITH NON-ATTORNEYS**

The Office of Career Services will not post job notices or otherwise disseminate employment information to students when a *non-lawyer* is seeking a law student to do legal research.

This policy is to prevent students from being placed in a situation where they could be called upon to render a “legal opinion.” Unless the research is being performed under the supervision and guidance of a licensed attorney, the “legal opinion” can be construed as practicing law without a license.
